

Who We Are

Background

Solidage Africa Foundation was an idea conceived by Mr Zoiku Felix Kwame at thirteen (13).

In May 2016, Mr Zoiku Felix Kwame shared his childhood dream for Africa with other good friends, Mr Divine Kofi Pekyi in Ghana and George Charisma from Cameroon, who shared a similar vision for the continent. On 9th June 2016, the dream materialised, and Mr Felix Kwame Zoiku finally established the foundation with support from other two friends as co-founders.

Our Vision

To be a model that will improve lives in communities around Africa by giving excellent Health support systems, Educational tools, Entrepreneurship and leadership skills under the Sustainable Development Goals (SDGs).

Our Mission

To undertake social and medical research and give all kinds of social intervention programs based on credible findings that will transform our rural communities across Africa and improve lives in the areas of Health, Education, Entrepreneurship and Leadership.

Touching lives, building communities and raising visionary leaders for a peaceful and prosperous future.

Areas of Work

→ Health

Provide quality medical Outreach programs in support of the health care system in Africa.

→ Education

Provide quality educational support to the less privileged and needy across Africa.

→ Entrepreneurship

Provide economic and entrepreneurial empowerment programs for job creation and business development among the youth and unemployed larger population in Africa.

→ Leadership

Provide quality leadership training programs for the youth, institutional heads, and political leaders through conferences, seminars, and workshops across Africa.
